

M. ZAIN UL ABIDEEN

Web Developer | Data Science Undergraduate | AI Application Developer

Khanpur, Punjab, Pakistan • +92 326 0030434 • muhammadzain7652@gmail.com

Portfolio: zain7652.github.io/portfolio • GitHub: github.com/zain7652

PROFESSIONAL SUMMARY

Final-year BS Data Science student and freelance web developer with 4+ years of hands-on experience building responsive websites and web applications. Built and deployed a full-featured inventory and sales management system (JavaScript + Firebase) now used by multiple shopkeepers. Combines front-end development with Python-based data analysis and forecasting, and is actively upskilling in React and AI/LLM application development (RAG, agents, APIs). Brings strong self-learning ability, business awareness, and digital content and SEO experience.

EDUCATION

BS Data Science

Expected 2027

Khwaja Fareed University of Engineering & Information Technology (KFUEIT), Rahim Yar Khan

- Relevant areas: Data Analysis, Machine Learning, Databases, Software Engineering, Programming
- Final Year Project: IntelliQuiz – AI-Driven Exam Security System (see Projects)

Intermediate (FSc)

2022

Ilm College

Matriculation

2020

Al Barkat School

EXPERIENCE

Freelance Web Developer

2022 – Present

Self-Employed • Remote

- Design and develop responsive, mobile-first websites for clients using HTML5, CSS3 and JavaScript.
- Translate client requirements into clean, user-friendly interfaces with modern animations and layouts.
- Maintain a personal portfolio showcasing completed web projects (zain7652.github.io/portfolio).

Digital Content Creator & YouTube Channel Manager

Ongoing

YouTube • TikTok • Facebook

- Managed multiple content channels across niches (faith, science, finance, technology, entertainment) and languages (English, Spanish, Portuguese, Arabic).
- Wrote long-form video scripts and complete SEO packages (titles, descriptions, tags, hashtags, posting schedules).
- Produced AI-generated video content using tools such as Veo 3 and Kling AI; analysed channel performance to improve reach and retention.

PROJECTS

Shop Inventory & Sales Management App

HTML, CSS, JavaScript, Firebase

Live: zain-shop-live.web.app/index.html

- Built a complete retail management web app, now used by multiple shopkeepers to run their daily business.
- Features: stock management (add/edit/delete), daily sales with automatic stock deduction, returns, credit (udhar) tracking, customer contacts, closing totals and data backup/export.
- Real-time dashboard (today's sales, stock value, low-stock alerts) and daily/weekly/monthly sales reports.
- Multi-shop setup with separate, secure data per shop using Firebase Authentication and Cloud Firestore.

IntelliQuiz – AI-Driven Exam Security System (Final Year Project)

KFUEIT

- Two-member FYP under the supervision of Dr. Shadab Alam, Department of Data Science & AI.
- Designed system architecture and UML documentation: ERD, Use Case, Class, Activity and Sequence diagrams.
- Presented the project at the university FYP exhibition.

Commodity Intelligence & Price Forecasting Platform

Python, React • In Progress

- AI-powered platform analysing 2020–2026 wheat and mustard (raya) prices for the Khanpur/Punjab market.
- Data collection and cleaning, CAGR and volatility analysis, seasonal trends, Linear Regression forecasting and BUY / HOLD / AVOID signals on an interactive dashboard.

Home Food Kitchen – Online Food Ordering Website

React, Tailwind CSS • Live

Live: home-food-kitchen-sigma.vercel.app/

- Built and launched a mobile-first ordering website for a home food delivery business serving university students; actively used by the business owner to receive daily orders.
- Features: menu grid, sticky cart, 4-step checkout and order tracking, designed for fast, high-conversion ordering.

TECHNICAL SKILLS

Web Development: HTML5, CSS3, JavaScript (ES6+), React (basic), Tailwind CSS, Responsive / Mobile-First Design

Backend & Database: Firebase (Cloud Firestore, Authentication), SQLite / PostgreSQL (basic)

Data Science: Python, Data Cleaning, Exploratory Data Analysis, Linear Regression, Forecasting, MS Excel

AI Tools: LLM APIs, Prompt Engineering, AI Video Generation (Veo 3, Kling AI)

Tools: Git & GitHub, GitHub Pages, VS Code

Digital Marketing: YouTube SEO, Scriptwriting, Social Media Content Strategy

LANGUAGES

English (Professional) • Urdu (Native)
